

IFS Certification

Certification Process Mapped

Our new modernized Certification process ensures clarity and is a globally applicable gold-standard for IFS expertise.

Certification adds a measure of consistency in the practice of IFS by providing a way to recognize those who have effectively demonstrated advanced skills of the model and begins after completion of a Level 1 Training.

Designations:

IFS Certified Therapist

IFS Certified Practitioner

DESIGNATIONS

IFS Certified Therapist

The applicant has earned a Masters degree in a Human Services field or any other appropriate mental health degree as defined by their country of practice, and Is licensed, registered and/or certified for clinical practice in their country of residence.

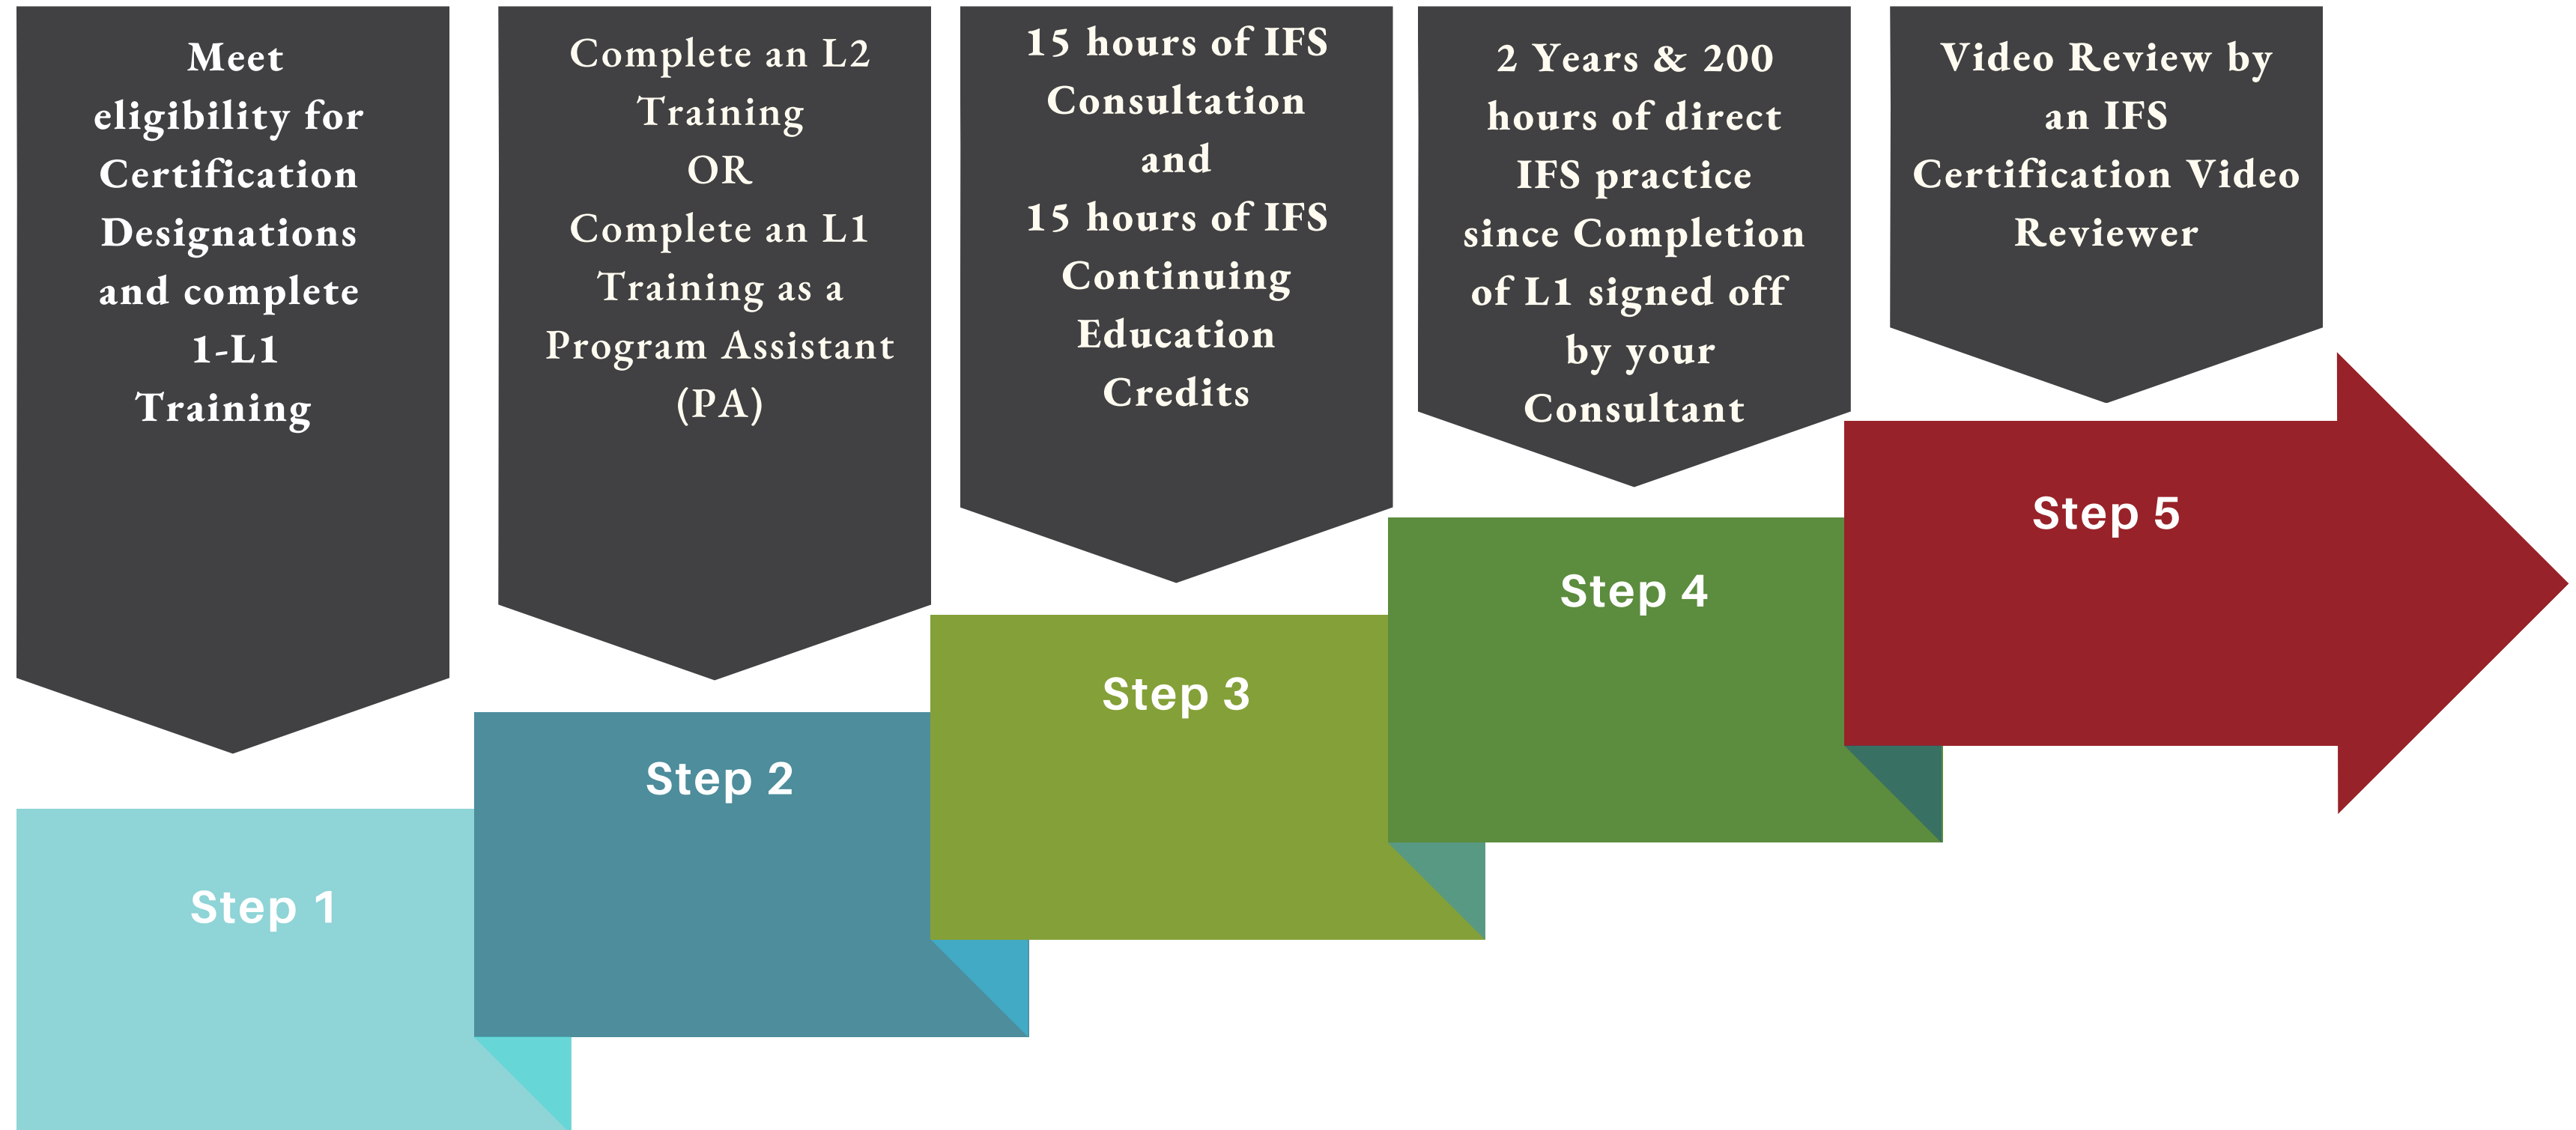

IFS Certification is not an entry level process. Individuals should have relevant field experience prior to beginning the process.

IFS Certified Practitioner

The applicant is registered or certified in their own field of practice. Professional scope of practice is determined by the individual's professional background prior to IFS certification.

Certification Pathway

BENEFITS OF IFS CERTIFICATION

- Granted the right to use the title "IFS Certified" in personal advertising
