The Internal Family Systems Model

IFS is at the forefront of a movement toward a more collaborative therapeutic approach that relies on clients' intuitive wisdom. IFS offers a clear, non-pathologizing, and empowering view of human cognitive and emotional life and provides a dynamic therapeutic approach that allows both therapist and client to enter into a transformational relationship in which healing can occur. For more information about the IFS model and its founder, Dr. Richard Schwartz, PhD, visit the IFS Institute Website.

Internal Family Systems: An Evidence-Based Practice

Internal Family Systems is posted on the National Registry for Evidence-Based Programs and Practices (NREPP). Interventions listed in NREPP have been subject to independent, rigorous scrutiny, and are deemed to show significant impact on individual outcomes relating to mental health. For more information about IFS as an evidence-based practice, please visit the Foundation for Self Leadership Website.

Diversity, Equity, and Inclusion

Our goal at IFS Institute is to create learning environments and a community that teach and support the internal welcoming of parts that have been exiled, shamed, or marginalized within our systems so that they may be seen, heard, valued, and ultimately healed. Our hope is that this work will lead to greater Self leadership where all of us are more connected, curious, and compassionate with ourselves and with each other. Curriculum

Overview: Anxiety and depression are the most presented symptoms of people seeking psychotherapy, and shame is frequently the engine that fuels both. This IFS Level 2 training provides an innovative way of understanding and working with the universal human problems of anxiety, depression, and shame with an evidence-based theory. This intensive training is an in-depth exploration of shame, depression, and anxiety through the lens of the IFS model, providing a framework that makes entrenched symptoms workable. This training will deepen your IFS skills and provide more tools for your IFS toolbox. The training structure is similar to that of a Level 1, with a mix of lectures, demonstrations, experiential exercises and practice. The training:

- Explores the IFS paradigm of depression, anxiety, and shame, not as a disorder, but as a coping mechanism of parts responding to a constraint in the internal or external system.
- Shows how this understanding provides a foundation for a uniquely powerful approach to these all-too-common symptoms.
- Introduces the organizing nature of shame.
- Focuses on expanding the participant's knowledge of essential processes unique to IFS, such as polarizations, working with extreme managers and firefighters, and unburdening.
- Emphasizes advanced techniques: working with legacy burdens, phobias, despair and inner critics.
- Continues the focus on Self as the healing agent in both the client and therapist. Includes opportunity for self-exploration and development of the Self of the therapist.

Format: The training includes lecture, discussion, live and video demonstration, experiential exercises, and small group practice.

Scope of Practice: Materials and methods included in this course may include interventions or practices that are beyond your scope of practice. As a professional in your given field, you are responsible for reviewing the scope of practice, including activities that are defined by applicable law as beyond the boundaries of your practice, and applying your learning in compliance with your professional standards.
