Level 2 Intensive Training Program (824)
IFS, Trauma and Neuroscience
November 2022
Online Training (Live, Real Time)

The Internal Family Systems Model

Internal Family SystemsSM is at the forefront of a movement toward a more collaborative therapeutic approach that relies on clients' intuitive wisdom. IFSSM offers a clear, non-pathologizing, and empowering view of human cognitive and emotional life and provides a dynamic therapeutic approach that allows both therapist and client to enter into a transformational relationship in which healing can occur.

Richard C. Schwartz, PhD, has been developing the IFS model for more than 30 years, with IFS now practiced by thousands of licensed therapists and other professionals throughout the United States and internationally. Mental health care professionals and others trained in the IFS model can easily integrate it into a wide variety of practices using the unique methods IFS offers to create safe environments for clients to become Self-transforming. Internal Family Systems therapy is a simple yet sophisticated integration of psychology, spirituality, and intra-psychic and family systems theory that:

*Richard C.
Schwartz*

- Works well with couples, families, groups, and children;
- Can effectively treat trauma;
- Is a client-led approach that respects each client's pace and goals;
- Establishes a productive, trusting, and collaborative partnership between therapist and client;
- Helps therapists remain centered and open-hearted.

Internal Family Systems: An Evidence-Based Practice

Internal Family Systems (IFS) is now posted on NREPP as an evidence-based practice. NREPP is the National Registry for Evidence-Based Programs and Practices, a national repository that is maintained by the U.S. government's Substance Abuse and Mental Health Services Administration (SAMHSA). Interventions listed in NREPP have been subject to independent, rigorous scrutiny, and are deemed to show significant impact on individual outcomes relating to mental health.

As a clinical treatment, IFS has been rated effective for improving general functioning and well-being. In addition, it has been rated promising for improving phobia, panic, and generalized anxiety disorders and symptoms; physical health conditions and symptoms; personal resilience/self-concept; and depression and depressive symptoms.

These scientific findings and the listing of IFS on NREPP affirm the vast potential of IFS therapy for advancing emotional healing and mental well-being. In particular, they indicate promising effects on mind (depression, anxiety), body (physical health conditions), and spirit (personal resilience and self-concept).

Curriculum

Overview: The growth of IFS is a testament to the power of its healing capacity. With IFS, individuals can rapidly unload traumatically held beliefs, sensations and emotions that burden their lives, allowing for Self-led transformation. The last decade has shown a similar expanse in neuroscience knowledge. We now have a greater explanation for what is happening in the brain during psychotherapy and how this leads to changes in functioning.

Each day of this training will have a different theme that will help participants to master the skills required to treat trauma and dissociation as it relates to the IFS model of therapy. Participants will learn about:

- Identifying and working with traumatized parts using meditation, bodywork, un-blending, and direct access;
- Using their Self and the Self of the client with Dissociative Identity Disorder (DID) and Attachment traumas;
- Working with extreme parts that are hyper- as well as hypo-aroused, including suicidal, self-harming, substance abusing, dissociative, and shame-based parts;
- Unburdening exiles, updating the system, and re-establishing trust in Self; and
- Integrating other therapies with IFS.

In addition to reinforcing the learning of IFS theory and technique, the training invites participants to explore parts of themselves that get activated when working with trauma, in the safe, nurturing environment of the training itself. Participants will be helped to:

- Understand the components of the IFS model that are relevant to the treatment of trauma;
- Apply IFS techniques when working with Dissociative clients; and
- Take advantage of experiential learning to foster personal growth and development.

Format: The training includes lectures, large and small group discussions, live and video demonstrations, and experiential practice groups.

Program Hours: The training runs for two, 3-day segments and has a total of 32 program hours. The daily schedule is available later in this brochure.

Learning Objectives: Please visit www.IFS-Institute.com, FAQ page.

Diversity, Equity, and Inclusion

Our goal at IFS Institute is to create learning environments and a community that teach and support the internal welcoming of parts that have been exiled, shamed, or marginalized within our systems so that they may be seen, heard, valued, and ultimately healed. Our hope is that this work will lead to greater Self leadership where all of us are more connected, curious, and compassionate with ourselves and with each other.

We recognize that IFS was developed and is still primarily taught and managed through a white lens. This has made it difficult to create an inviting space for everyone to feel safe and welcome and to contribute fully to the evolution

and growth of the community. As a result, we have not been as effective as we could be in the ongoing fight for freedom and healing for all peoples.

To focus our efforts and hold ourselves accountable, we have developed specific commitments to reflect our desire for all peoples to find solace and healing from IFS, while we hold space for individuals to contribute their unique gifts, voices, and perspectives to the IFS movement.

Please review IFS Institute's commitments regarding diversity, equity, and inclusion [here](#).

Substance Use at Trainings

IFS Institute understands that many people have had positive therapeutic experiences with psychedelics, however, due to health and safety concerns for all of our participants, please refrain from taking psychedelics or other consciousness-altering substances during IFS Institute's trainings.
